I-129 FIELD RELEASES

SYMBOL: HSHP:WPG

The purpose of this memorandum is to confirm the agreements recently reached by Harold Bernard and Bill Gammill concerning the I-129 field releases at the NRTS this summer.

It is our understanding that NSEC personnel and equipment will arrive at the NRTS about August 5 with the intention of being ready to start tests on August 10. Also, if NSEC should experience any additional significant delays, the releases will be cancelled for this summer due to a conflict with our Controlled Environmental Radioiodine Tests (CERT). The next phase of the CERT program is scheduled to begin on or about September 1.

We have arranged for a chemistry laboratory and additional work space for the use of NSEC personnel. We would appreciate being kept informed of any program changes during the next two weeks. Bill Gammill will attend an ACRES Subcommittee meeting in Washington on July 31 and will contact Harold Bernard for the latest information.
